**Re: Hog Creek Wind Farm LLC,
Case Nos. 10-654-EL-BGN, 16-1422-EL-BGA and 16-1423-EL-BGA**

Dear Ms. McNeal:

On November 29, 2016, the OPSB issued an Order on Certificate approving Hog Creek Wind Farm, LLC's ("Hog Creek") applications to amend its Hog Creek I Certificate (Case No. 09-277-EL-BGN) and Hog Creek II Certificate (Case No. 10-654-EL-BGN) subject to the conditions set forth in the Stipulation and continued compliance with the conditions set forth in the certificate orders as later amended (Order on Certificate at 9).

Within these sets of conditions, Hog Creek II certificate **Condition 43** requires that:

If the Vestas V100 technology and layout is selected, Hog Creek shall submit a 1,000-meter shadow flicker analysis to OPSB Staff for review and approval.

The required shadow flicker analysis was included in Case No. 16-1423-EL-BGA filed June 22, 2016 as Joint Exhibit 7. Thus compliance with **Condition No. 43** has been achieved.

If you have any questions please call at the number listed above.

Sincerely,

Sally W. Bloomfield
