COMMENT DESCRIPTION:

I am writing to voice my INTENSE opposition to AEP's request for a rate increase. I can not believe that this company has the nerve to ask for a rate increase of 120%. This is outrageous!!

COMMENT DESCRIPTION:

This is regarding AEP's proposed increase of 120% on the "Customer Charge". As both a customer, and an AEP employee with a moral compass, I must strenuously object to this purely greed-driven proposal. The amount of money AEP spends on trivialities is mind-boggling. Millions were spent needlessly changing their logo over the last year, for example. Millions have also been spent on H1B visa contractors, at the expense of Ohio jobs. It is incumbent on the PUCO to stand up for Ohio's power customers, and deny these extravagant price increases. They only benefit the executives at AEP, not customers or employees.

COMMENT DESCRIPTION:

Siam totally for any rate increase for Aep. A company making millions off of poor America,those on fixed income with limited resources some almost not enough to buy needed meds. Rates go up but we never see a drop on our bill.always a reason to pass on to us a higher bill .most of us have no option of another company .so please for the love of God look at the consumer first for a change. Thank you for your time. Jim thompson

COMPLAINT DESCRIPTION:

I object to the proposed rate increase by AEP. This is gouging and ludicrous. Their statement that the costs will be defrayed by decreases in other fees is even more absurd. This is a way to regain back money that they lose to customer choice. I have not had my electric supplied by AEP for years and since then my electric bill have been much lower where it should be. It is unfortunate that they cannot be more competitive with their supply charges. However, they will not make it up by instituting exorbitant BS fees. I am extremely conscientious about using energy and do my best to conserve by investing in energy efficient lighting and appliances which are significantly more expensive. This is all for nothing if I am paying out the nose to AEP. NOT HAVING IT!

COMPLAINT DESCRIPTION:

Another rate increase is insane. We are all ready paying far too much for utilities. This is nothing but corporate greed. I have a family of four and every year it becomes harder and harder to pay the electric bill as it spirals out of control. They put scrubbers on the power plants so they could burn cheaper coal and our rates went up. Power plants are switching to natural gas and our rates still go up. I've replaced every lightbulb with LEDs and my bill still goes up. Please stop the madness! Thank you, Robert W Bucey

COMMENT DESCRIPTION:

My wife and I are opposed to the recent proposed fixed rate increase by AEP of Ohio. The proposed increase is significant and unjustified. AEP of Ohio has had several significant rate increases in the last several years. AEP of Ohio is a very profitable company and needs to become better steward of their finances instead of consistently hiking rates. I would not be as opposed if they provided good customer service. Most of our interactions with AEP of Ohio are negative. We have numerous electric poles in our immediate area that are leaning significantly and cracked, they refuse to fix them. They have destroyed trees in our area by their lazy trimming of trees. We had tried to call them numerous times to get info about trimming a tree in our service line, we were looing for guidance. We never received a call back after numerous messages. If they could provide quality service and higher rate would be appropriate. This proposed hike is unnecessary. AEP needs to better manage their company rather than bleeding its customers wallet. Thanks you for your time and please oppose this rate increase.
