COMMENTS: I oppose the siting of the gas pipeline at it's currently proposed location deep in a heavily populated residential area of northeast Hamilton County and near schools, hospitals, and shopping areas. I do not trust Duke Energy to minimize risk based on my personal experience with them working in my personal property resulting in significant personal injury to me. Their response was to deny responsibility. I have no reason to believe their claims (which I have listened to) about the safety of the proposed project. Please route this pipeline and all future pipelines to the least densely settled area possible in the interests of safety. That should be the primary criterion used to evaluate options for the pipeline route.
