Members of OPSB,

I strongly urge you to require Duke Energy to inform all employees of stores, businesses, hospitals, and schools along the Central Corridor Gas Pipeline project of the proposed routing of the pipeline. My wife Patricia and I have tried to draw the attention of employees in the affected Blue Ash area concerning the the pipeline and have found that most people had no idea that such a pipeline was routed in the close proximity of their work place.

Thank you,
Wolfgang Mayer

I oppose the pipeline for following reason:

1. Sycamore High, Edwin H. Green Intermediate School and Ursuline Academy are at least in part inside the danger zone.
2. The Blue Ash Education Building and - day care through Kindergarten is within 100 feet from the pipeline, which is in the blast zone.
3. The pipeline will run between Kenwood Road, and Keystone Plaza Shopping area of Blue Ash under the parking area.
4. Much of the Kenwood Towne Center will be in the danger zone.
5. The pipeline is routed around two sides of Jewish Hospital, placing it in the danger zone.
