I am writing this letter to express
my concerns on energy raising costs.
Raising my monthly bill takes away
from large families as well as wages
as food, housing, and other vital expenses.
Not only that I'm basically paying
for pollution in the air that will
affect my youngest son an asthmatic,
which I have to buy him the inhaler
a month just to breathe. These things
should be considered before raising my
bill so I can no longer afford
them.
