Re: The Dayton Power and Light Company's Notice for Proposed Middleboro Metering Point Relocation Project, Harlan Township, Warren County, Ohio, Case NO. 17-1240-EL-BNR, Expedited Treatment Requested

Dear Mr. Donlon and Ms. McNeal:

This letter serves as The Dayton Power and Light Company's ("DP&L") pre-application letter in order for the Ohio Power Siting Board ("Board") to open a case for the proposed Middleboro Metering Point Relocation Project in Harlan Township, Warren County, Ohio.

In accordance with Ohio Administrative Code ("OAC") Rule 4906-6-03(A), DP&L provides the following information:

Project Description: To address a retail wheeling settlements issue, PJM requires relocation of the existing DP&L and AEP metering points at the existing Middleboro Substation by June 1, 2017. Construction will consist of installing one (1) steel pole, two (2) wood poles and 290' circuit feet of 477 ACSR conductor with 3/8" shield wire. The entirety of the project will be on existing Middleboro Substation property for which a Letter of Notification was previously filed in Case No. 04-1383-EL-BLN. The proposed project will not entail purchasing any additional property or expansion of the existing substation.

Anticipated Project Schedule: In light of PJM's required timing, construction is planned to start May 19, 2017, or as soon as practical thereafter, and the in-service date for the project is May 31, 2017.

Expedited Treatment: DP&L respectfully requests expedited treatment for this application, in particular, waiver of the 21 days notification requirement.

Sincerely,

A handwritten signature in blue ink that reads "H. Shamash".

Hertzel Shamash
Vice President, Resource Planning
