QUESTION DESCRIPTION:

The commercials that Dayton Power & Light is showing on TV regarding energy savings is extremely silly and a BIG waste of money. The information they advertise can easily be included in their customers monthly bills. When your business is a public utility, the company should not be allowed to throw money away on this kind of public service announcement. They are truly wasting the customers' money. I'm sure they will be requesting additional money from their customers after they've drained their funds on these frivolous commercials. Please do not allow them to increase our monthly fees.
