17-1055-EL-REN

Mark Bellamy,

In regard to 17-1055-EL-REN, Sol Systems has been informed by the installer that the system was initially registered incorrectly. The facility has 26 Solar World 275 watt panels, with a total nameplate capacity of 7.15kW DC. The array picture is included below. Can you please amend the certification and send the amendment to GATS?

Thank you for your help. Please let me know if additional information is needed.

Best,
Kate Brandus
