Subject: Oppose the Central Corridor Pipeline Extension Project

Dear Ohio Power Siting Board,

As a resident of Blue Ash and concerned citizen, I am writing you to register my opposition to Central Corridor Pipeline Extension Project (Reference No. 16-253- GA-BTX).

I have worked hard all my life to finally be able to afford a home in the desirable neighborhood of Blue Ash, OH. Previous to that, I rented. I feel like it's all for nothing, because my property value will decrease, and I do not feel safe keeping my family here, should the pipeline be approved, it will run right in front of my house. This has created a great deal of worry and stress, because we won't be able to afford to move with the house worth less than we paid for it. There is no doubt, that if there is a safety issue, we are well within the "kill zone". Ask yourself - would you allow this if your family was living right next to this thing?

This pipeline will travel through densely populated areas, including my neighborhood and will pose a danger to residences, schools, businesses and houses of worship.

Unlike delivery pipelines, this pipeline will be under up to 500psi pressure and an accident or rupture could cause injuries, death and destruction of property within a radius of 1000 feet.

I ask you to oppose this pipeline and encourage both Duke Energy and the Ohio Power Siting Board to reject this pipeline

Thank you for your consideration.

Regards,
Linda Hull
