To whom it may concern:

I am writing to discuss the issue of fixed rate charges on my utility bills. I would prefer to invest in energy saving upgrades, such as new energy efficient appliances. Having big fixed fees reduce what my family can save from making better investments. And these investments would not just affect me, but all Ohioans. We need to be focusing our attention on clean energy, renewable resources, and ways to save our environment. We live in a world today that is ignoring our future. We are only thinking of the here and now. We need to change our thinking about the bigger investment: the investment of our planet and how we treat it.

I have two children who I would like them to see that if people raise awareness for the good of all people, a difference can be made. And not just for the wealthy.

Thank you for your time.

Sincerely,

Joe Coladangelo

To Whom it May Concern,

The recent proposal by First Energy to increase mandatory residential "Customer Charges" is unwarranted and flies in the face of logic. How is it that they expect their customers to cover their unknown costs, forever, without having any ability to control those costs?

First Energy is in this position because they banked on cheap coal, forever. That did not happen - for VERY GOOD REASONS. It would be such a relief to see someone take a leadership role here and just tell them that what they are doing is wrong and deny FE's request for an increase.

Thank you for listening to me. I am a law abiding, tax paying, and voting citizen from Lucas County and I would be so moved if you could see through all of the gibberish and do the right thing for the citizens of Ohio.

Kindest Regards,

Karen Soubeyrand

Case # 17-0334-EL-ATA

Public Utilities Commission,

My family of 7 and I are against the proposed increase in the "Customer charge". I work two jobs, clip coupons + shop discount stores to save money; this would become a burden on my family. We are careful to not waste energy but this appears to be a "penalty" for doing so.

In consideration of many families like my own, please don't increase the "Customer charge".
