Case number: 17-0334-EL-ATA

To Whom It May Concern:

We recently learned of FirstEnergy's proposal to increase our monthly charges to at least 4 times what we currently pay. If this should happen it would be very difficult for our monthly budget. We do not believe it is fair for the rates to increase by that much.

Sincerely,

Justin Hudson

Dear Ford Energy,

Your proposed to increase
your upfront "customer
charge" is unconscious-

able. Should you do this

I will immediately

Cancel my account.

Your poor business

choices do Not equal

my cooperation.

I want you to know

I will DROP YOU. →

I will not be able
to ~~invest~~ invest
in energy savings.
You need to invest
in Alternative Power.

I cannot pay any
more for my utilities.

Signed,

I bleed when you
squeeze me —

I am writing to express my opposition to the new "customer charge" that is being prepared to FirstEnergy customers. This large increase to our monthly family household budget is unacceptable. It seems like our bills keep going up and up, but our wages stay the same. I would love to invest in some energy saving appliances, but how can I afford that with costs constantly going up. It is the opposite direction we should be going as far as positive environmental changes. Please consider this. Thank you.

1. WE all have budgets, if you guys want us to pay much more than the current charge than your costermers would decrease. Cuz no one is going to pay this much. IS called supply & demand well kinda I just changed the supply into money & demand is people. lower the price more people and is basically vice versa, so don't change the price. And for energy just use solar panel roof (tesla)

Regarding Case NUMBER 17-0934-EL-ATA

Don't allow First Energy to increase
monthly charge to homeowners.

I am a retire person who is living
only on Social Security.

My Social Security does not increase 90 ~~use~~
as much as First Energy wants to increase
their charges per month. Three hundred percent
is way too much.

Sincerely
Tom Oakes
