COMMENT DESCRIPTION:

Four Ohio utilities proposed large mandatory fixed charge increases amounting to additional \$150/year for my family to pay. I am opposed to proposals that allow a utility to charge me a mandatory fee for power I am not using. My household makes every effort to reduce our electricity usage, and we should not be punished by steep fixed rates. I support an increase in energy efficiency and renewable energy programs in Ohio, and am evaluating options to install solar power in our house in the future. High fixed rates will certainly make these plans less attractive. We cannot let utilities turn to fixed rate hikes instead of investing in renewables and efficiency. I hope that the PUC will reject these proposals. Respectfully, Eduard Polyakov
