Columbus, OH 43215

Re: AEP case number 16-1852-EL-SSO

Dear Public Utilities Commission of Ohio:

Please do not allow electric companies to increase upfront residential fees called the customer charge. I've got 2 kids in college and can't afford any more increases in monthly expenses.

Sincerely,

  
John Scott

Dear Friend

I am 92 yrs. old. live on my social security, Can't afford higher electric bills.

I am a widow. Sit here by my self + have one light on at night.

AEP case number 16-852-EL-550

To Whom It May Concern:

I have recently been made aware of AEP case number 16-1852-EL-SSO regarding the increase in the customer charge over the next two years. I am against this increase because it will be financially difficult to pay this extra amount. We have three kids, one in college, and kids cost a lot of money! Plus we have other bills to pay and groceries to buy.

Please do not make this increase.

Thank you,

To Whom This Concerns-

I am appalled to hear we the people will be charged 119% increase of our electric bill <sup>per</sup>!! Not only that but what this is being used for and we are paying off coal companies. This is insane for this 119% increase all because of thinking coal remaining cheap. Thanks!! Because I'm 50000, rich (what a joke!!) I can afford a private jet!! Wrong!! Just drain my low income budget!! This is appalling. Solar would be wonderful! And Not Nuclear or Coal. Too dangerous!

Thank You Very Much!

I strongly support the development and usage of sustainable (renewable) resources in the production of electricity. Solar, wind, and hydro sources cut the emissions of harmful gases in our atmosphere. Now is the time to begin making choices that effect the future.

Sincerely,
