Dear PUCO,

Dear Chairman Haque and Commissioners of the PUCO,

I am pleased AEP's recent stipulation in case 16-1835 and new plan removes the Company's proposed egregious fixed rate increase. The original proposal would have increased my bill every month and put an undue burden on electricity customers on a fixed income.

I am also pleased with AEP's new proposals to increase electric vehicle infrastructure, create a new micro-grid pilot project, and commitment to finding ways to best fund and develop new clean energy projects. These are the sort of forward thinking proposals Ohio needs more of and I'm pleased AEP has taken the initiative.

It is my hope the PUCO approves AEP's plan and prioritizes clean energy development, and additional forward thinking proposals.

Sincerely,

Stephanie Bissell

You need to know that I and many, many, many others support CLEAN ENERGY and we applaud the fact that AEP has agreed to remove their proposed customer charge increase. People on fixed incomes such as those who are retired would have suffered greatly from this unreasonable fee.

We applaud the fact that AEP has agreed to invest millions in electric vehicle infrastructure and micro-grid pilot projects. I am especially comforted knowing of AEP's willingness to go forward and enhance projects worked out with guidance from Sierra Club. These projects focus on clean energy development including wind and solar energy development. Clean energy is important today and critical for tomorrow.

On news and weather reports, over and over again, we are hearing how fossil fuel burning has served to warm the Gulf of Mexico, giving more energy to Hurricanes Katrina and Harvey among others. Clean energy helps our planet in countless ways on numerous levels. We need to do everything possible to get our planet back to normal.

Thank you for helping support clean energy goals for today and days and years to come.

Sincerely,
Patricia Lindamood

Dear PUCO,

Dear Chairman Haque and Commissioners of the PUCO,

I am pleased AEP's recent stipulation in case 16-1835 and new plan removes the Company's proposed egregious fixed rate increase. The original proposal would have increased my bill every month and put an undue burden on electricity customers on a fixed income.

I am also pleased with AEP's new proposals to increase electric vehicle infrastructure, create a new micro-grid pilot project, and commitment to finding ways to best fund and develop new clean energy projects. These are the sort of forward thinking proposals Ohio needs more of and I'm pleased AEP has taken the initiative.

It is my hope the PUCO approves AEP's plan and prioritizes clean energy development, and additional forward thinking proposals.

Sincerely,

Uriah Hammock

Subject: I support the stipulation in Case 16-1835
Date: Wednesday, August 30, 2017 10:55:13 AM

Dear PUCO,

Dear Chairman Haque and Commissioners of the PUCO,

I am pleased AEP's recent stipulation in case 16-1835 and new plan removes the Company's proposed egregious fixed rate increase. The original proposal would have increased my bill every month and put an undue burden on electricity customers on a fixed income.

I am also pleased with AEP's new proposals to increase electric vehicle infrastructure, create a new micro-grid pilot project, and commitment to finding ways to best fund and develop new clean energy projects. These are the sort of forward thinking proposals Ohio needs more of and I'm pleased AEP has taken the initiative.

It is my hope the PUCO approves AEP's plan and prioritizes clean energy development, and additional forward thinking proposals.

Sincerely,

Sarah Dumont

Dear PUCO,

AEP has received numerous rate increases though multiple rate riders enacted over the past year and has come to realize it doesn't need a fixed charge increase at this time. This will greatly benefit the low income and elderly. Dear Chairman Haque and Commissioners of the PUCO,

I am pleased AEP's recent stipulation in case 16-1835 and new plan removes the Company's proposed egregious fixed rate increase. The original proposal would have increased my bill every month and put an undue burden on electricity customers on a fixed income.

Dear PUCO,

Dear Chairman Haque and Commissioners of the PUCO,

I am pleased AEP's recent stipulation in case 16-1835 and new plan removes the Company's proposed egregious fixed rate increase. The original proposal would have increased my bill every month and put an undue burden on electricity customers on a fixed income.

I am also pleased with AEP's new proposals to increase electric vehicle infrastructure, create a new micro-grid pilot project, and commitment to finding ways to best fund and develop new clean energy projects. These are the sort of forward thinking proposals Ohio needs more of and I'm pleased AEP has taken the initiative.

It is my hope the PUCO approves AEP's plan and prioritizes clean energy development, and additional forward thinking proposals.

Sincerely,

Chris Moffo
