

THE PUBLIC UTILITIES COMMISSION OF OHIO

IN THE MATTER OF THE RENEWABLE
PORTFOLIO STANDARD COMPLIANCE
STATUS REPORT FOR 2015 OF AMBIT
NORTHEAST, LLC.

CASE NO. 16-819-EL-ACP

FINDING AND ORDER

Entered in the Journal on October 20, 2017

I. SUMMARY

{¶ 1} The Commission approves the 2015 renewable portfolio standard compliance status report of Ambit Northeast, LLC.

II. DISCUSSION

A. *Applicable Law*

{¶ 2} Ambit Northeast, LLC (Ambit) is an electric services company as defined in R.C. 4928.01(A)(9) and, as such, is subject to the jurisdiction of this Commission.

{¶ 3} R.C. 4928.64(B)(2) establishes benchmarks for electric services companies to acquire a portion of their electricity supply for retail customers in Ohio from renewable energy resources. R.C. 4928.645 provides that an electric utility or electric services company may use renewable energy credits (RECs) and solar energy credits (SRECs) to meet its respective renewable energy and solar benchmarks. Ohio Adm.Code 4901:1-40-01(BB) defines a REC as the environmental attributes associated with one megawatt hour (MWH) of electricity generated by a renewable energy resource, except for electricity generated by facilities as described in Ohio Adm.Code 4901:1-40-04(E).

{¶ 4} Ohio Adm.Code 4901:1-40-05(A) requires each electric services company to annually file by April 15 a renewable portfolio standard compliance status report (RPS report), unless otherwise ordered by the Commission. The RPS report must analyze

all activities the company undertook in the previous year in order to demonstrate how pertinent alternative energy portfolio benchmarks have been met. Staff then conducts an annual compliance review of the company's filing and the records of the applicable attribute tracking system to ensure that RECs were sourced from generating facilities certified by the Commission and were appropriately associated with electricity generated for the compliance period.

B. *Procedural History*

{¶ 5} On April 15, 2016, Ambit filed its 2015 RPS report. Ambit stated that did not have any Ohio retail electric sales in 2012, 2013, or 2014. Ambit proposes a baseline from calculations using its projected calendar year sales. The projected sales and calculations are disclosed in the confidential version of its compliance filing.

{¶ 6} On November 28, 2016, Staff filed its Review and Recommendations for EDF's RPS report. Staff reports that Ambit was an electric services company in the state of Ohio and, therefore, had an RPS filing obligation for 2015. Staff reviewed Ambit's attribute tracking system account record to verify compliance, and determined that Ambit satisfied its 2015 RPS compliance obligations. Further, Staff recommends that, for future compliance years, Ambit initiate the transfer of the appropriate RECs and SRECs to its attribute tracking system reserve subaccount between March 1 and April 15 so as to precede the filing of its annual RPS report with the Commission.

C. *Conclusion*

{¶ 7} Upon review of Ambit's 2015 RPS report and the records of these proceedings, we adopt Staff's recommendations.

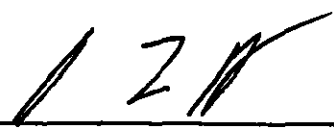

III. ORDER

{¶ 8} It is, therefore,

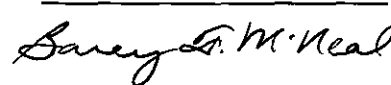

{¶ 9} ORDERED, That Ambit's 2015 RPS report be accepted as filed, as Ambit has met its RPS filing obligation for 2015. It is, further,

{¶ 10} ORDERED, That a copy of this Finding and Order be served upon all parties of record.
