

Public Utilities Commission of Ohio
Consumer Services Division

Memorandum

Date: 10/30/2017

Re: Deborah Hall
1111 Delta Ave

Cincinnati, OH 45208

Docketing Case No.: 17-0032

Notes:

The customer would like to comment on 17-0032 for Duke increasing their rates.

"She protests the plan to increase the fees for connection to electric service. residential consumers will bare the biggest burden especially those with low income or on a budget and fees should not be reduced for commercial connections as they rates are being increased for residential consumers."

Please docket the attached in the case number above.

COMMENT DESCRIPTION:

I cannot attend the meeting on October 30th where Duke Energy can request approval for increasing their customer fee from \$72 per year to \$273.24 per year. I do not support this and I urge this request to be denied. It is absolutely sick that they would request such a huge increase in the fee. It is disgusting to learn that they want to do this for residential customers only and that business customers would get lowered fees! Insane! Please do not approve this request to increase the fee and do not let Duke Energy rip off residential customers while they charge businesses less for service!

COMMENT DESCRIPTION:

I understand that Duke energy is proposing a 300% increase in usage fees for residential services, even while commercial services are being discounted. I have no interest whatsoever in subsidizing the profits of Duke Energy or my local businesses and corporations through paying exorbitant fees on top of already climbing energy rates, and this proposal to increase Cincinnati residential user fees to over 270 dollars per year is straight usury on behalf of Duke Energy, and will further victimize impoverished residents of the city who are already suffering economically from reduced civil and social services. The last thing that needs to be done here is to approve such an extreme increase in fees that will target lower class families and our seniors alike. An increase is fine. The proposed increase is unconscionable and must be mitigated through negotiation or straight refusal.
