COMMENT DESCRIPTION:

This is in response to Duke Energy asking for an increase in their "fixed charge" of our bill. A 300% increase would severely harm our ability to pay our electric utility bill. We already have enough ahead of us with increases in our tax levies. I also don't like the idea that it will limit my choice, as more of my money will be going to Duke regardless of the energy company I use. This is in reference to case: 17-32-EL-AIR. I urge you to not allow this fixed rate increase. Please tell them to make themselves more competitive rather than just putting us on the hook for higher bills. Thanks for your consideration, Jeff Zaenger

COMMENT DESCRIPTION:

Regarding case# 17-32-EL-AIR, I am in complete opposition to the proposal by Duke Energy to increase the fixed charge on our bills and decrease our usage charges. I have done my best to reduce my energy usage, and am "rewarded" for doing so with a lower utility bill. This will reduce much of this reward (and reduce incentive for other customers to do the same), which I think is an extremely BAD idea!

COMMENT DESCRIPTION:

Duke proposal to triple the fix charge to over \$22 is a very bad idea. This will reduce the incentive to save energy by reducing the per kWh. In this time of global warming makes no sense. We should get rid of all fixed charges including on gas and do all revenue needed by Duke per a unit of usage to encourage conservation!!

COMPLAINT DESCRIPTION:

I was just informed that my energy company is seeking to raise customer fees exponentially ,even though they are making record profits and offering deals to large businesses! 1st why in the world are we charged a fee to be a customer when there aren't any other companies to choose from? Like we have a choice. I liken it to extortion. We are be holden to their company anyway. What happened to the cost of doing business? Does that not apply to monopolies? It should with no competition. I'm really tired and more importantly cannot afford to keep paying more and more for energy. It's bad enough it's lots of "RIDERS " that actually amount to as much or more than the amount that we use. Oh and I can't forget the 30\$ each month for gas delivery whether you use it or not. I shudder to think how much \$ has been made by this company for (nothing) the 19 years I've been at my residence. As we don't use gas in the summer. Please consider all of us people who don't have deep pockets !!
