In the Matter of the Application of	)	
Suburban Natural Gas Company for	)	Case No. 17-2321-GA-AIS
Consent and Authority to Establish Long-	)	
Term Financial Arrangements	)	

#### APPLICATION OF THE SUBURBAN NATURAL GAS COMPANY

Pursuant to Sections 4905.40 and 4905.41, Revised Code, Suburban Natural Gas Company ("Suburban") respectfully requests the authorization of the Public Utilities Commission of Ohio ("Commission") to approve the long-term financial arrangements described more fully herein. In support of its Application, Suburban states as follows:

- Suburban, a privately owned Ohio corporation, is a public utility and a natural gas company within the definitions of Sections 4905.02 and 4905.03(E), Revised Code, and, as such, is subject to the jurisdiction of the Commission pursuant to Sections 4905.04, 4905.05, and 4905.06, Revised Code.
- Suburban currently provides natural gas service to over 17,070 Ohio customers in Delaware, Marion, Henry, and Wood Counties.
- 3) By this Application and as reflected in the Term Sheet dated November 6, 2017, attached as Exhibit A, Suburban proposes to restructure its financial arrangements with its current lender, Huntington National Bank, consisting of its long term debt facility and its secured operating line of credit. It also proposes to execute a senior draw note to fund the construction of an extension of pipeline facilities necessary to maintain the capacity to serve existing customers and add new customers.

- 4) As reflected in Exhibit A, the proposed financial arrangements are as follows:
  - a. A revolving line of credit of up to \$8,000,000, maturing three years from the closing date, will support general corporate needs. It will be subject to a variable rate of interest equal to the one month London Inter-Bank Offered Rate ("LIBOR") plus 225 basis points. The principal balance will be due at maturity. An unused commitment fee of 12.5 basis points calculated on the daily unused capacity is payable quarterly in arrears. This line of credit is to be issued for money only in order to fund Suburban's general working capital requirements.
  - b. A senior term note of up to \$5,000,000 will mature in five years from the closing date. It will require equal monthly payments of principal and interest based on 96 month amortization, with a variable interest rate of LIBOR plus 245 basis points. Suburban will be required to enter into an interest rate protection contract, with the rate fixed by a LIBOR rate swap based on the prevailing market rate on the closing date, for a five-year or seven-year period. This long term debt facility will refinance the balance of the existing term loan and amortize a portion of the existing line of credit.
  - c. A senior draw note of up to \$8,500,000 will mature in five years from the closing date, with a draw period of 12 months from the closing date. Through September 30, 2019, the payments will be interest only followed by equal monthly payments of principal and interest based on a 156 month amortization, with a variable interest rate of LIBOR plus 245 basis points. Suburban will be required to enter into an interest rate protection contract, with the rate fixed by a LIBOR rate swap based on the prevailing market rate on the closing date, with a twelve month

- forward, for a five-year or seven-year period. This long term debt facility will finance an extension of its existing pipeline facilities necessitated by its forecasted capacity needs to continue to serve existing customers and add new customers.
- d. The origination fees are waived, and Suburban must comply with certain covenants and conditions as required by Huntington National Bank.
- 6. Pursuant to Section 4905.41, Revised Code, attached to this Application as Exhibit B are Suburban's required financial statements, including Suburban's balance sheet and income statement, for Suburban's most recent fiscal year, 2016.
- The long-term financial arrangements described herein are for the purpose of extending its facilities, for lawful refunding of its obligations as contemplated by Section 4905.40(A)(2), Revised Code, and not for the purpose of the reimbursement of money expended from income.
- 8. As permitted by Section 4905.42, Revised Code, Suburban requests that this Application be approved without a hearing. The obligations to be funded by the revolving line of credit, the senior term note, and the senior draw note, are manifestly for the appropriate purposes set forth in the Section 4905.40, Revised Code, and necessary for Suburban's continuing ability to provide safe and reliable natural gas service to its customers for the foreseeable future. Suburban is prepared to provide the Staff of the Commission with such additional information as reasonably may be required.

WHEREFORE, Suburban respectfully requests that the Commission find that this Application meets the requirements of Sections 4905.40 and 4905.41, Revised Code, and approve the long term financial arrangements described herein without hearing prior to January23, 2018.

Respectfully Submitted,
