This Letter is in reference to the Macksburg – Devola 138kV Transmission Line Rebuild. Project 16-0702-EL-BTX.

We would like to submit the following written testimony.

We live at 510 Gunclub Road and own the building lot on the east side of our home. The lot is approximately 1.4 acres and is approximately 150 feet wide. Our understanding is that your preferred route will require a 100 foot right of way thru the middle of the 150ft width of this lot. The right of way will eliminate the potential for building a residence and render the lot worthless. Our research indicates that this condition will also cause some devaluation of our existing home.

We prefer that your alternate route be selected.

Regards,
