Hello, my name is Aaron Donelan, I am currently a 5th year apprentice with local 38 electricians union. As a local we have heard and have been talking about this wind turbine project out on Lake Erie. I am a supporter in this project it is the best of two worlds. It will produce work in our jurisdiction as well as help produce power in an efficient way. I'll be looking forward to seeing the outcome of this project and hope it leads to even more in the future.

Thanks,

Aaron Donelan

I strongly support the Icebreaker Windpower project for Cleveland, Ohio. As a Local 38 IBEW member, this project would be a great opportunity for myself and other skilled IBEW workers. Additionally, we need **more** renewable energy resources! Cleveland should be the leader of this growing market. Finally, it is our responsibility to protect the environment which comes with renewable energy.
