COMMENTS: I'm wondering what happens if the wind farm is a go, what happens to our homes? Are they purchased? Do you know which addresses would be affected yet? I love my home, but I love my kids a whole lot more and thus matters a whole lot more to their future than what house they live in. I hope and pray that the rest of ohio cares about the environment, and our children enough to evolve into clean energy. I would ne so proud to bw part of it!
