RE: Letter of Notification  
Lemaster-Lick 138kV Transmission Line Relocation Project Update  
Case Number: 17-2439-EL-BLN

Dear Property Owner:

In accordance with Rules 4906 of the Ohio Administrative Code (OAC), AEP Ohio Transmission Company, Inc., (AEP Ohio Transco) is required to submit a Letter of Notification to the State of Ohio Power Siting Board (OPSB) whenever certain changes are made to our transmission facilities. This is the second filing for this project. We are slightly shifting the location of the transmission line on our property.

The proposed Lemaster-Lick 138kV Transmission Line Relocation Project Update, Public Utilities Commission of Ohio Case Number 17-2439-EL-BLN, consists of relocating a 138 kilovolt (kV) transmission line on property owned by AEP Ohio Transco. The total length of the Lemaster-Lick transmission line relocation is less than a half mile long. AEP Ohio Transco will upgrade the transmission line by using primarily single pole, steel structures. This project will be an approximate \$1 million investment by AEP Ohio Transco. The project will traverse York and Waterloo townships in Athens County. Construction is scheduled to begin in March 2018.

In compliance with Rule 4906-6-01, et seq., of the OAC, we have prepared and filed a Letter of Notification with the OPSB. The Letter of Notification to construct, operate and maintain this facility is now pending before the board.

Members of the public are encouraged to comment about this project. You can comment by calling Erin Miller at 614-552-1929 or 877-215-9261 or sending an email to [ecmiller1@aep.com](mailto:ecmiller1@aep.com). You can also send your comments directly to the OPSB at its contact information listed below. Petitions to intervene in the OPSB process can be filed to the siting board up to 10 days following the public notice announcing the project.
