COMMENTS: As a fisherman and boater, I am dismayed that Lake Erie is being considered as a construction site for wind turbines. Lake Erie is a significant revenue source for northern Ohio residents and communities because of its recreational draw. The lake's importance as a source of fresh water cannot be overstated.

Lake Erie is Ohio's greatest natural resource. Ohio's goal should be to preserve the lake's natural beauty and recreational value for all to see and enjoy. I support renewable energy, but it must be properly sited. Lake Erie is not the proper site for wind turbines.
