Ohio Power Siting Board
180 E. Broad Street
Columbus, Ohio 43215

Dear Board Members,

This letter is in response to Docket #17-2295-EL-BGN the planned installation of some 66, 595' tall wind turbines in Seneca and Sandusky Counties.

I strongly object to the loss of the rural environment. These wind companies are an industry that take away the natural environment, it's peace, quiet and dark skies, distorting the lives of those who have made their homes in rural Seneca and Sandusky Counties.

Everyday new scientific studies find that green space is need for good mental health and general well being of humans.

Rural space is important, it needs to be protected, not run over by industry that cares nothing for the natural beauty it destroys.

There are other sources of clean energy that are much less intrusive, but because they are not as cost effective as wind energy they are pushed aside

Please vote NO for #17-2295-EL-BGN.

Thank you,
Carol Burkholder
