The following information is being provided in compliance with Condition No. 2 of the February 27, 2018 Ohio Power Siting Board (“OPSB”) Staff Report of Investigation and as agreed to by Dominion Energy Ohio’s (“DEO”) Supplement to Construction Notice filed March 1, 2018.

Condition No. 2 states:

Prior to construction, the Applicant shall submit to Staff, for review and confirmation that it complies with this condition, a project construction plan that provides the specific locations of its laydown areas and is responsive to Ohio Department of Natural Resources (ODNR) concerns about state listed species and ecological areas of significance. If the specific laydown locations chosen appear to have additional adverse impacts, the Applicant shall either propose different specific locations without such impacts, or refile its application.

DEO has now selected its construction contractor, H. M. Miller. H. M. Miller has selected a laydown area at the south east corner of Harrisburg Road NE and 30th Street NE, City of Canton, Stark County, Ohio as shown on the map below. This property was recently acquired by the Ohio Department of Transportation (“ODOT”) in the name of Stark County for the proposed round about work.
