**SUBJECT:** Cleveland Electric Illuminating Company - Regarding PUCO

Please docket the following comments in the case number above:

I support PUCO's inquiry into FirstEnergy's rates given the reduction in federal taxes. So far, FirstEnergy's responses have been inadequate and amount to a tautology: since we have the rate, we get to keep the rate..

Comment:

Duke and other utilities should be compelled to pass on savings to customers, just as they are often allowed to pass on increased costs. I realize they are all hemorrhaging money for their decision to "double down" on coal in an age of natural gas and renewable energy, but that's precisely why they should not be allowed to keep money for which they provided no service or value to customers.
