Columbia Gas of Ohio, Inc.
Case No. 18-0295-GA-EDP

BACKGROUND:

On February 21, 2018, in Case No. 18-0295-GA-EDP, the Columbia Gas of Ohio, Inc. (Columbia or Company) filed an application for approval of an economic development project entitled CertainTeed Expansion Project (Project). By Finding and Order (Order) January 24, 2018, in Case No. 17-1905-GA-ORD, the Public Utilities Commission of Ohio (Commission) adopted revised rules in Ohio Adm. Code 4901:1-43 concerning the recovery of infrastructure development costs for natural gas company infrastructure development to implement R.C. 4929.16 - 4929.167. These rules allow natural gas companies to file applications for an infrastructure development rider (IDR) to recover costs of certain economic development projects.

The rules require a natural gas company that seeks recovery of economic development project costs to first file an application for an infrastructure development rider. The rules then require natural gas companies to file a notice with the Commission, prior to beginning construction, for approval of an economic development project. The notice must contain: (1) the name and location of the project; (2) a background of the subject company of the economic development project; (3) the level of total investment and capital expenditure by the subject company and the economic development impact (including estimated state and local taxable base increase, anticipated number of new jobs created and retained by the project, and a description of the community served and the benefits to that community); (4) a description of the potential locations that may compete with the proposed location (to the maximum extent practicable), and (5) the level of infrastructure investment anticipated by the natural gas company. The level of infrastructure investment must also include a description of how the infrastructure development costs are projected to generate a return less than the most recently authorized rate of return and a description of how the utility will not exceed the \$1.50 cap on an a monthly basis.

SUMMARY OF APPLICATION:

As stated, the Company filed an application for approval of an economic development project entitled the CertainTeed Expansion Project (Project). The Company proposes that the total project costs for recovery is \$719,333. Simultaneously, the Company filed an application for a limited waiver of Ohio Adm. Code 4901:1-43-03(A)(3)(a), which requires a natural gas company to disclose in economic project applications the estimated state and local taxable base increases associated with proposed projects. Columbia maintained that such tax information is not available to it; therefore, it cannot provide the required disclosures. Also on February 21, 2018, Columbia filed a motion for protective order seeking to protect from disclosure required capital investment information, including specific capital contributions. On March 9, 2018 the Office of Consumer Counsel filed a motion to intervene. On March 20, 2018, the Attorney Examiner assigned to this case granted Columbia's motion for a limited waiver and motion for protective order.

STAFF'S REVIEW AND RECOMMENDATIONS:

In accordance with R.C. 4929.163(A), notices of economic development projects shall be deemed automatically approved on the thirtieth day after the date of the notice filing unless the notice filing is suspended by the Commission for good cause shown. Staff has reviewed Columbia's application in this case and discussed with the Company how the proposed project development costs are projected to generate a return less than the most recently authorized rate of return pursuant to Ohio Adm. Code 4901:1-43-

03(E)(1). Staff also confirmed that the new rate will not exceed the amended \$1.50 per month rate limitation. Based on this review and the Commission's approval of Columbia's motion for limited waiver of Ohio Adm. Code 4901:1-43-03(A)(3)(a), in Staff's opinion, Columbia's application is consistent with the Commission's rules governing approval of infrastructure development projects. Therefore, Staff recommends that the Commission approve Columbia's application in this case by operation of the thirty-day automatic approval process established by R.C. 4929.163(A).
