COMPANY\_NAME: Seneca Wind

CASE\_NUMBER: 18-0605-EL-BGN ~~18-0488-EL-BGN~~

COMMENTS: I am asking that you please NOT allow this wind farm to take place near residential homes. We are currently raising 5 daughters in the area and have taught them to enjoy Mother Nature by going for walks, bike rides and studying the habitat of multiple species as well as just closing our eyes to listen to the peace and serenity Mother Nature has to offer. They are trying to strip this from us and we are scared to death. Currently we are being surrounded by multiple digging sites where possible wind turbines will be put. With much in depth study and review these are catastrophic to residential homes and devastating to the mental and physical health of those residing in the homes. My children and I are afraid of the harm that can not only come to Mother Nature, the habitat but also to us! We have been walking door to door and no one wants them other than the farmers who are making the money and will live nowhere near the dangerous turbines. Please we are begging you to hear the cries of the people and generations to come, Do Not Allow Wind Farms where people are trying to enjoy life while raising the next generation. Stand up for what matters the Families of the future not the money. May God have mercy on everyone involved, G

COMPANY\_NAME: Seneca Wind Farm proposal

CASE\_NUMBER:

COMMENTS: My husband Joe and I oppose industrial wind turbines in Seneca County. We live in Eden Township and Seneca Wind Farm is wanting to build here.

Truly, what is the thinking to continue to diminish the countryside's clear skies and quiet nights? It's no coincidence that attendance in up in our national parks as people flee urbanization for respite.

It's not progress when we are trashing the beautiful areas we live and raise families in, like Seneca County's rural area.

Seneca County has already participated in increasing "energy" for the nation by having the gas pipe lines put through across the farming community. Please consider the legacy we will be waning to leave.

Respectfully,

Diane and Joe Hudok

COMMENTS: I'm not in favor of these turbines. first they sent a lady out to get me to sign saying that everyone else has signed.. lies ..I'm afraid of the eye pollution, Land restrictions, all the health problems from the flash, ultrasonic Waves, and wildlife destruction.. I didn't purchase land to build a house on to now have a possible turbine behind it. Please do some research on the effects of already established wind farms... Farm animals failure to thrive. People can't sleep with the noise, heart problems, suicide rates higher... Please help.
