**DOCKETING CASE #:** 16-0253-GA-BTX

**SUBJECT:** Gas Pipeline through Cincinnati

Please docket the attached in the case number above.

It is telling that Duke Energy would spend more money to avoid affluent neighborhoods, thus routing the "Green Route" through Reading, Ohio which is a working class neighborhood. It is obvious that using a longer route is worth the cost to protect wealthier residents in other neighborhoods. Frankly, putting this pipeline in any densely populated area is irresponsible. If or when an explosion occurs, those at Duke Energy and the Ohio Power Sitting Board that made this decision should be prosecuted possibly even with murder if deaths occur. If this is such a good idea, I would expect that any of the people involved would welcome this pipeline through one of their neighborhoods.
