COMMENTS: 4/19/18

I live in the preferred route and near the terminus.

This area is full of children, a school, a soccer field and residences. Duke does not need more capacity. They are doing this to make a profit not to provide a service. We are being put at risk, so they can earn more money. In 2016, they paid ZERO TAX.

Protect us and do your jobs. No support of profits only, this is a public utility that should be serving us, not the shareholders. Time to examine if they are really doing a public service.

I am writing to you in reference to Duke' recent resubmission for the pipeline corridor in Hamilton county. 16-253-GA-BTX. Case.

I continue to feel that this is unnecessary and that it puts our communities in danger. I have always been under the impression that government is supposed to protect it's citizens. This situation makes this belief false. All this is is big business taking all they can and taking full advantage of citizens. Come on protect us those who you serve. Don't let Duke' endanger our families and community. Protect us!!!
