Subject: Seneca wind farm

I would like to express my dislike for the wind farm project in seneca county. I would be paying a Canadian company to devalue my property and using my federal tax money to let them do it. This project is ill advised and only good for the Canadian company and a handful of local land owners. This will not help our community as the power will be sold into the grid and not used locally as it is reported to produce more than we use here. I urge you to deny the permitting of this ill advised project. Thank you. John Schultz. Bloomville ohio.
