

Dear Ohio PUCO,

Thank you for being proactive and thinking toward our future instead of stagnating in the old and easy. Much appreciated!

I support the Commission's approval of case 16-1835.

I am pleased with and support AEP's plans to increase electric vehicle infrastructure, create a new micro-grid pilot project, and their commitment to finding ways to best fund and develop new clean energy projects. These are the sort of forward-thinking proposals Ohio needs more of and I'm pleased AEP has taken the initiative.

I am also eagerly awaiting, and support, AEP's forthcoming filing on their Appalachian solar initiative. This initiative aims to attract significant clean energy investments to Ohio's Appalachian communities at sufficient scale to attract high-tech, job-creating manufacturers in the solar supply chain.

It is my hope the PUCO will continue to support plans like what AEP has crafted that prioritize clean energy development and additional forward-thinking proposals.

Sincerely,

Robin Gianakopoulo

These are the sort of forward-thinking proposals Ohio needs more of and I'm pleased AEP has taken the initiative.

I am also eagerly awaiting, and support, AEP's forthcoming filing on their Appalachian solar initiative. This initiative aims to attract significant clean energy investments to Ohio's Appalachian communities at sufficient scale to attract high-tech, job-creating manufacturers in the solar supply chain.

It is my hope the PUCO will continue to support plans like what AEP has crafted that prioritize clean energy development and additional forward-thinking proposals.

Dear Ohio PUCO,

I SUPPORT renewable energy!!

I support the Commission's approval of case 16-1835.

I am pleased with and support AEP's plans to increase electric vehicle infrastructure, create a new micro-grid pilot project, and their commitment to finding ways to best fund and develop new clean energy projects. These are the sort of forward-thinking proposals Ohio needs more of and I'm pleased AEP has taken the initiative.

I am also eagerly awaiting, and support, AEP's forthcoming filing on their Appalachian solar initiative. This initiative aims to attract significant clean energy investments to Ohio's Appalachian communities at sufficient scale to attract high-tech, job-creating manufacturers in the solar supply chain.

It is my hope the PUCO will continue to support plans like what AEP has crafted that prioritize clean energy development and additional forward-thinking proposals.

Sincerely,

Gina Bates

Dear Ohio PUCO,

As the Great Lakes Basin will be the biggest beneficiaries of the unfortunate effects of climate change, our communities, organizations, and businesses need to adapt to the reverse migration that will be happening as people move from the coasts to the inland Riviera Ohio. Let's go 100% green so that we attract the best and the brightest with our clean water, clean air, and premier sustainable lifestyle!

I support the Commission's approval of case 16-1835.

I am pleased with and support AEP's plans to increase electric vehicle infrastructure, create a new micro-grid pilot project, and their commitment to finding ways to best fund and develop new clean energy projects. Thank you for all your efforts to make Ohio the leader in this endeavor . We r so very proud of to b an Ohioan!! Clean Air here we come!!

I support the Commission's approval of case 16-1835.

I am pleased with and support AEP's plans to increase electric vehicle infrastructure, create a new micro-grid pilot project, and their commitment to finding ways to best fund and develop new clean energy projects. These are the sort of forward-thinking proposals Ohio needs more of and I'm pleased AEP has taken the initiative.

I am also eagerly awaiting, and support, AEP's forthcoming filing on their Appalachian solar initiative. This initiative aims to attract significant clean energy investments to Ohio's Appalachian communities at sufficient scale to attract high-tech, job-creating manufacturers in the solar supply chain.

It is my hope the PUCO will continue to support plans like what AEP has crafted that prioritize clean energy development and additional forward-thinking proposals.

Sincerely,

Betty Chan

I support the Commission's approval of case 16-1835.

I am pleased with and support AEP's plans to increase electric vehicle infrastructure, create a new micro-grid pilot project, and their commitment to finding ways to best fund and develop new clean energy projects. These are the sort of forward-thinking proposals Ohio needs more of and I'm pleased AEP has taken the initiative.

I am also eagerly awaiting, and support, AEP's forthcoming filing on their Appalachian solar initiative. This initiative aims to attract significant clean energy investments to Ohio's Appalachian communities at sufficient scale to attract high-tech, job-creating manufacturers in the solar supply chain.

It is my hope the PUCO will continue to support plans like what AEP has crafted that prioritize clean energy development and additional forward-thinking proposals.

Sincerely,

Cynthia Bishop
