COMMENTS: I have been researching the information on wind turbines, and need to say that we are completely against any of them being placed in Seneca County. We believe the shadows and noise would be very disrupting, and it's certainly something we do not wish to deal with. One particular video caught my attention, and their closest turbine was 1200 feet from their home. The host of problems for them was unimaginable to me.

We believe any turbines here would be a complete disservice to our country way of life.
