To Whom it May Concern:

I've lived in this area for many years and I've been following the Republic Wind project (Docket No. 17-2295-EL-BGN - Republic Wind, LLC) for quite some time. I've participated in public discussions and directly interacted with the developer, Apex Clean Energy.

Apex has been accessible and responsive to questions and feedback. Overall, they have been very engaged with members of the community and are committed to protecting our legacy. As I've talked to my fellow residents, I see broad support for Republic Wind. I recognize there are some in the county who do not want wind projects. Fortunately, no one is telling them they must put a turbine on their property.

The economic, community, infrastructure and health benefits that would result from this project are hardly debatable. For these reasons I urge you to support Republic Wind.

Sincerely,

To Whom it May Concern:

I may not like the color my neighbor chose to paint their front door, or being woken up from my afternoon nap because of their barking dog; but I acknowledge that it is their right to do and have what they want on their property.

I ask that my neighbors and commissioners recognize that I have the same right to do what I want with my property. I know that the Republic Wind project (Docket No. 17-2295-EL-BGN - Republic Wind, Llc) will provide an economic boost to my community while providing a clean source of power that will improve the air quality in our region. My family could also use the payments provided by allowing turbines to be built on my property. I have a right to use my land to participate in this project.

Please uphold the property rights of landowners by standing up to the anti-wind ~~bullies~~ *people* who want to tell me what I can do with my own land.

Thank you for your time and consideration.

Best Wishes,

*Sharon L. Burkholder*

To Whom it May Concern:

Tiffin and Seneca County are ranked by SIEDC in the top 10% for economic development of 600 similarly sized communities nationally. I attribute this success to commissioners like you who share our commitment to economic development projects like Republic Wind (Docket No. **17-2295-EL-BGN** - Republic Wind, Llc).

Now is not the time to stagnate this momentum. I want to see my community continue to grow with employment opportunities for my neighbors and my family.

Economic and environmental sustainability should be priorities for our county. I am proud of our economic success and of my commissioners who have helped us develop our land. Thank you for your commitment to sustainability and economic growth.

Sincerely,
