COMPANY\_NAME: Seneca Wind LLC Case No. 18-0488-EL-BGN

CASE\_NUMBER:

COMMENTS: My friends and family live in rural Seneca County where the wind turbines are supposed to go up. We are very concerned about the setbacks. Please require that all the setbacks are to be measured from the property line. With the massive size of these turbines, I feel that they should be set back farther to compensate for the bigger size of them. We will have 19 in a mile and a half from our home. That is too many to put in with all the houses around them. I am worried about my property value, shadow flicker, noise and etc. My home will be unsellable as I really don't think anyone would buy a home in the middle of an industrial turbine park. Please consider keeping the setbacks from the property line. The people around these projects are very upset. Please protect us.

Joyce Ziegler
