

Ohio Public Utilities Commission,

I am a resident of Seneca County, a tax-paying voter of Ohio, and I OPPOSE the Republic Wind, LLC (Case Number: 17-2295-EL-BGN) and Seneca Wind, LLC (Case Number: 18-0488-EL-BGN) projects. I live within the footprint of the Republic Wind project, and will have 3 turbines within a half mile of my home and 5 within a mile. I have educated myself on the issue and decided the costs outweigh the benefits. I refuse to allow myself, family member, friend, or neighbor to be victimized by the industrial wind corporation or their allies. Seneca County is a part of scenic rural Ohio and not an industrial zone. I will fight to preserve the beauty and welfare of my community. I refuse to be subjected to the growing health and safety issues associated with industrial wind turbines. I adamantly object to any encroaching on my property through trespass zoning. I have chosen to take a stand and join the growing majority in Seneca County AGAINST industrial wind projects. I will support my neighbors. I will defend Seneca County.

Thank you,

Michelle Hoepf
Reed Township
Seneca County

I vehemently oppose wind turbines in Seneca County, these are dangerous eyesores and completely uncalled for in our farm land

Linda Messersmith

I live in the Republic wind project area .I have lived in this area my whole life. I own 7 houses in this project area . If this project is giving the green light to go ahead I have renters that have said they will move because they said they will not live near a turbine. Who am I suppose to rent to? Do I lower my rent just to get someone to rent ? I'm 54 years old I work bridge construction I work hard for what I have . If these turbines get put in and I cannot rent my investment property's and am forced to sell I will be lucky to get half of what I have invested. Im asking you to not only consider the big farmers In this matter but also the small property owners.
