

One of the most important investments we can make is our children. Our kids deserve a high-quality education, and having good schools with adequate resources are pillars to success. That's why I support Republic Wind (case number: 17-2295-EL-BGN). Unfortunately, one of the biggest challenges our schools face is insufficient funding. Luckily, our county has the opportunity right now to get a new, dedicated stream of revenue from the Republic Wind farm. When completed, Republic Wind will deliver about \$36 million to local schools. These resources could be used to hire more teachers, update our equipment, or help fund new facilities. This is a tremendous opportunity for our community. I ask that members of the Ohio Power Siting Board support Republic Wind and support our local schools.

Timothy Holmer
