Dear members of the OPSB:

<http://www.chicagotribune.com/news/nationworld/midwest/ct-illinois-pipeline-explosion-20180710-story.html>

Another explosion caused by human error. This is what happens to pipelines. And by building one through the highly populated Hamilton county and the City of Cincinnati, the chance of this happening very near me is frightening. The need for the pipeline has not been proven and even if there is a need, there are other less dangerous ways to meet it. (Eg. Repair/ replace peaking plants, choose a rural route)

Please reject this project.

Sincerely,

Ann Chisko
