

Public comment 18-0488

The new map submitted by S Power now shows a turbine on one of our parcels of land ! Turbine #71. We have been actively against and fighting this project from day one. We have been investigating this issue and found that this is due to a signature back in 2008 that we agreed and were told was for bird studies and surveying land. There was no talk of turbines ever. I am saddened now to know we never had a lawyer really study these documents. We work very hard and had little time to understand what was going on at the time. We have NEVER wanted turbines in our county and to this day are fighting against this project. Please know that we are actively fighting to remove turbine #71 from this project ! !

Deb and John Martin
