☒ No ☐ Yes

If yes, provide a separate attachment labeled as **Exhibit B-6 "Disclosure of Certification Denial, Curtailment, Suspension, or Revocation"** detailing such action(s) and providing all relevant documents.

C. APPLICANT FINANCIAL CAPABILITY AND EXPERIENCE

PROVIDE THE FOLLOWING AS SEPARATE ATTACHMENTS AND LABEL AS INDICATED:

C-1 **Exhibit C-1 "Annual Reports,"** provide the two most recent Annual Reports to Shareholders. If applicant does not have annual reports, the applicant should provide similar information in Exhibit C-1 or indicate that Exhibit C-1 is not applicable and why. (This is generally only applicable to publicly traded companies who publish annual reports)

C-2 **Exhibit C-2 "SEC Filings,"** provide the most recent 10-K/8-K Filings with the SEC. If the applicant does not have such filings, it may submit those of its parent company. An applicant may submit a current link to the filings or provide them in paper form. If the applicant does not have such filings, then the applicant may indicate in Exhibit C-2 that the applicant is not required to file with the SEC and why.

C-3 Exhibit C-3 “Financial Statements,” provide copies of the applicant’s two most recent years of audited financial statements (balance sheet, income statement, and cash flow statement). If audited financial statements are not available, provide officer certified financial statements. If the applicant has not been in business long enough to satisfy this requirement, it shall file audited or officer certified financial statements covering the life of the business. If the applicant does not have a balance sheet, income statement, and cash flow statement, the applicant may provide a copy of its two most recent years of tax returns (with social security numbers and account numbers redacted).

C-4 Exhibit C-4 “Financial Arrangements,” provide copies of the applicant's financial to satisfy collateral requirements to conduct retail electric/gas business activity (e.g., parental or third party guarantees, contractual arrangements, credit agreements, etc.,).

Renewal applicants can fulfill the requirements of Exhibit C-4 by providing a current statement from an Ohio local distribution utility (LDU) that shows that the applicant meets the LDU’s collateral requirements.

First time applicants or applicants whose certificate has expired as well as renewal applicants can meet the requirement by one of the following methods:

1. The applicant itself stating that it is investment grade rated by Moody’s, Standard & Poor’s or Fitch and provide evidence of rating from the rating agencies.
2. Have a parent company or third party that is investment grade rated by Moody’s, Standard & Poor’s or Fitch guarantee the financial obligations of the applicant to the LDU(s).
3. Have a parent company or third party that is not investment grade rated by Moody’s, Standard & Poor’s or Fitch but has substantial financial wherewithal in the opinion of the Staff reviewer to guarantee the financial obligations of the applicant to the LDU(s). The guarantor company’s financials must be included in the application if the applicant is relying on this option.
4. Posting a Letter of Credit with the LDU(s) as the beneficiary.

If the applicant is not taking title to the electricity or natural gas, enter “N/A” in Exhibit C-4. An N/A response is only applicable for applicants seeking to be certified as an aggregator or broker.

C-5 Exhibit C-5 “Forecasted Financial Statements,” provide two years of forecasted income statements for the applicant’s **ELECTRIC related business activities in the state of Ohio Only**, along with a list of assumptions, and the name, address, email address, and telephone number of the preparer. The forecasts should be in an annualized format for the two years succeeding the Application year.

- C-6** **Exhibit C-6 "Credit Rating,"** provide a statement disclosing the applicant's credit rating as reported by two of the following organizations: Duff & Phelps, Dun and Bradstreet Information Services, Fitch IBCA, Moody's Investors Service, Standard & Poors, or a similar organization. In instances where an applicant does not have its own credit ratings, it may substitute the credit ratings of a parent or affiliate organization, provided the applicant submits a statement signed by a principal officer of the applicant's parent or affiliate organization that guarantees the obligations of the applicant. If an applicant or its parent does not have such a credit rating, enter "N/A" in Exhibit C-6.
- C-7** **Exhibit C-7 "Credit Report,"** provide a copy of the applicant's credit report from Experion, Dun and Bradstreet or a similar organization. An applicant that provides an investment grade credit rating for Exhibit C-6 may enter "N/A" for Exhibit C-7.
- C-8** **Exhibit C-8 "Bankruptcy Information,"** provide a list and description of any reorganizations, protection from creditors or any other form of bankruptcy filings made by the applicant, a parent or affiliate organization that guarantees the obligations of the applicant or any officer of the applicant in the current year or within the two most recent years preceding the application.
- C-9** **Exhibit C-9 "Merger Information,"** provide a statement describing any dissolution or merger or acquisition of the applicant within the two most recent years preceding the application.
- C-10** **Exhibit C-10 "Corporate Structure,"** provide a description of the applicant's corporate structure, not an internal organizational chart, including a graphical depiction of such structure, and a list of all affiliate and subsidiary companies that supply retail or wholesale electricity or natural gas to customers in North America. If the applicant is a stand-alone entity, then no graphical depiction is required and applicant may respond by stating that they are a stand-alone entity with no affiliate or subsidiary companies.

RESOURCE ENERGY SOLUTIONS, LLC
ELECTRIC AGGREGATOR/POWER BROKER APPLICATION

EXHIBIT A – 13 COMPANY HISTORY

A concise description of the applicant's company history and principal business interests.

The company will not take title to any commodity but will serve as broker or aggregator between the property owner (i.e., the energy user) and the third-party electricity supplier. The company management team has a combined 60 years of experience working with energy needs and operations of commercial real estate properties. The company will provide renewal energy systems and energy procurement services in an effort to support customers who own large portfolios of commercial real estate in their efforts to contain very high energy costs. The company will also offer demand response energy service, energy management systems and other solutions that will reduce the tremendous cost of energy for real estate companies, many of which spend tens of millions of dollars annually.

Steven Schlusel, President of the company, has extensive knowledge of commercial real estate and retail space having spent 25 years providing services in such areas. He has intricate knowledge of commercial real estate operations and the role energy costs play in such operations. He has advised large retail chains on industry leading energy management solutions in many parts of the country, and he is one of the leading proponents for the deployment of solar energy systems and fuel cell technology in commercial real estate in order to reduce and control energy costs and minimize damage to the environment.

Scott Reinstein, Chief Executive Officer of the company, was formerly in charge of energy for all 40,000,000 square feet of commercial space owned by the Westfield Group where he worked for nearly two decades. In his role, he bought energy nationally for years and was responsible for development and implementation of a company-wide energy procurement and management plan that was extremely successful in controlling costs for Westfield Group. Scott has lectured on energy procurement and management in the real estate industry and is one of the leading experts in the nation based on his achievements at Westfield Group and in energy procurement for the shopping center and retail industries. Customers of the company will have Scott's ability to do the same for them as he did for Westfield Group: help them to design and implement energy plans that will save money on procurement and usage.

Richard Plutzer, Chief Financial Officer of the company, is a CPA and attorney. He is also the founder and past-Chairman of the Energy Committee of the Commerce and Industry Association of New Jersey, and he has lectured numerous times on energy management and procurement issues and subjects. He has published articles on both demand response and renewable energy and together with Scott Reinstein has worked on articles regarding the design and development of long-term strategic energy procurement for commercial real estate owners. Richard has approximately 25 years of involvement with the commercial real estate industry in various levels of operations.

EXHIBIT B – 1 JURISDICTION OF OPERATION

Provide a list of all jurisdictions in which the applicant or any affiliated interest of the applicant is, at the date of filing of the application, certified, licensed, registered or otherwise authorized to provide retail or wholesale electric services including aggregation services.

As of the date of filing there are no jurisdictions in which the applicant is certified, licensed, registered or otherwise authorized to provide retail or wholesale electric services including aggregation services.

RESOURCE ENERGY SOLUTIONS, LLC
ELECTRIC AGGREGATOR/POWER BROKER APPLICATION

EXHIBIT B – 2 Experience and Plans

Provide a description of the applicant's experience and plan for contracting with customers, providing contracted services, providing billing statements and responding to customer inquiries and complaints in accordance with Commission rules adopted pursuant to Section 4928.10 of the Revised Code.

The company intends to use its large network of relationships within the commercial real estate industry to offer energy procurement services with regard to electricity without taking title to the power. Under no circumstances will the company take title to any commodity whatsoever. In addition, the contract for the procurement of power will be between the energy supplier (the energy company providing the electricity) and the energy user (the real estate owner).

The company's role will be that of a broker and aggregator, and it will attempt to match the needs of the many commercial real estate companies (with a particular emphasis on owners of shopping malls) it knows and has worked with over the last few decades with the largest energy suppliers in the nation.

The company's management team's decades of experience in commercial real estate operations including many years of working with the heads of operations for various real estate companies will enable the company to analyze such companies' specific energy needs, help them to design plans to meet those needs and objectives, and work with them to procure energy (electricity only) for their properties.

The company's management team is available 24/7 to meet customers' needs as has been done over the years in other areas of services provided them relative to their properties' operations. The company will be able to deal personally with any questions, complaints or other points raised in connection with the planned services to be offered by the company to its customers.

All of the real estate enterprises to which the company intends to market its energy procurement services understand the depth of experience and expertise the company has with regard to commercial real estate operations, and the company will use those many years of service to provide customers with energy procurement services that will be second to none in the industry.

RESOURCE ENERGY SOLUTIONS, LLC
ELECTRIC AGGREGATOR/POWER BROKER APPLICATION

EXHIBIT B – 3 SUMMARY OF EXPERIENCE

The company will not be taking title to any commodity. The company will serve as an intermediary between the energy supplier and the energy user.

The company management team has many decades of experience working with the energy needs and uses of commercial real estate properties. The company intends to provide renewable energy systems across the country along with energy procurement services together with demand response service, energy management systems and other solutions that will reduce the tremendous cost of energy today for real estate companies.

Scott Reinstein, COO of the company, will lead energy procurement efforts. He was formerly in charge of energy for all 40,000,000 square feet of commercial space owned by the Westfield Group. In his role, he bought energy (primarily electricity) all over the nation for years at a cost of tens of millions of dollars per year and was responsible for development and implementing a company-wide energy procurement and management plan that was extremely successful in controlling costs for Westfield Group. Scott has lectured on energy procurement and management in the real estate industry and is one of the leading experts nationally in energy procurement and energy management for the shopping center and retail industry. Prospective customers of the company have requested that Scott now do the same for them as he did for Westfield Group: help them to design and implement energy plans that will save money on the procurement and usage of energy.

The company is targeting commercial real estate in the area of shopping centers and retail space, and it believes there is no one in the national who has more expertise in the area of energy management including the area of energy procurement than Scott Reinstein. As a result, the company feels it is uniquely qualified, and more so than any other company, to offer such services to mall owners and owners of retail chain stores. In fact, Mr. Reinstein has been requested by many owners of malls and retail chain stores to assist them in the coming years in energy management including energy procurement and demand response. Indeed, each of such groups spends tens of millions of dollars each year on electricity, and the rising cost of electricity has required them to aggressively address such cost.

As an added matter, Richard Plutzer, CFO of the company, is a CPA and attorney. He is also the founder and Chairman of the Energy Committee of the Commerce and Industry Association of New Jersey and has lectured numerous times on energy management and procurement issues and subjects. He has published articles on both demand response and renewal energy and together with Scott Reinstein has worked on

an article on designing and developing cost effective energy procurement and usage plans for commercial real estate owners.

EXHIBIT B – 4 DISCLOSURE OF LIABILITIES AND INVESTIGATIONS

Provide a description of all existing, pending or past rulings, judgments, contingent liabilities, revocation of authority, regulatory investigations, or any other matter that could adversely impact the applicant's financial or operational status or ability to provide the services it is seeking to be certified to provide.

None.

RESOURCE ENERGY SOLUTIONS, LLC
ELECTRIC AGGREGATOR/POWER BROKER APPLICATION

EXHIBIT C – 1 ANNUAL REPORTS

The company does not issue or have annual reports. As a small, privately-held limited liability company with only three members, each of which is involved in day-to-day business operations, periodic financial statements (income statement and balance sheet) are prepared and distributed to its members. However, no other reports are prepared for the members.

RESOURCE ENERGY SOLUTIONS, LLC
ELECTRIC AGGREGATOR/POWER BROKER APPLICATION

EXHIBIT C – 2 SEC FILINGS

Provide the most recent 10-K/8-K filings with the SEC. If the applicant does not have such filings, it may submit those of its parent company. An applicant may submit a current link to the filings or provide them *in paper form*. *If the applicant does not have such filings, then the applicant may indicate in Exhibit C-2 that the applicant is not required to file with the SEC and why.*

The company is a small, privately-held limited liability company and, as such, is not required to make SEC filings or any state securities filings.
