CASE\_NUMBER:

COMMENTS: Hello,

I write you today about the purposed wind projects in seneca county. I've been a resident of seneca county my entire (32 years) life. My family and my Fiancés family both call this home. We choose to stay here, with our families, and our perspective business' because of the quiet, rural setting. I currently own a home at the provided address, and intend to build a new 2400 sqft home and 2400 sqft shop for my business in the near future. We have NO INTENTION if living near these wind projects, which will end up forcing us to relocate away from our families, and our home county. I urge you I, for the survival and prosperity of Seneca county, please consider what this will impact. Both good and bad for our counties and communities.

Thank you,

Jim Distel, Concerned Resident, Seneca County Ohio.

Subject: Wind turbines in seneca county ohio.

Very much opposed to this project. I really can't stand the killing of our wildlife. Especially the hummingbirds and the eagles. When I opened your web sight it did not let me vote the way I wanted. Is it always marked to be excellent, I would never say this is a good idea. People just see \$ signs and that's all they see. I've been wanting to say this for a long time, but haven't been able to come up with the words. The commissioners are not really working for the people of this fine county, just their pockets. This matter should have been on a ballot in Nov. Now we can say we area nation of killing birds as well as human beings. Very, very sad in Seneca County Ohio.

COMMENTS: I am writing you to ask the two above wind projects not be allowed to come to our county. They have been so misleading and have downright untruthful. We do not want these monstrosities in our county, near our homes and our families.

Sincerely,

Lisa Handshoe
