COMMENTS: I'm sending this in regards to the republic wind project. I am very concerned about a number of subject's. The safety for the community. These big turbines have a history of failures. Our water table out here is very delicate. We have numerous sink holes. To my nolege there has not been no geological studies done. There are supposed to be 9 turbines with in 1 mile radius of our home. I'm afraid of our well going dry or our basement getting flooded. There are a number of health issues with people living close to these turbines. It is documented. Let alone our property values. Tiffin did a recent poll and 71% of seneca county did not want them. So PLEASE consider this in your decision. Thank you
