

# THE PUBLIC UTILITIES COMMISSION OF OHIO

IN THE MATTER OF THE RENEWABLE  
PORTFOLIO STANDARD COMPLIANCE  
STATUS REPORT FOR 2017 OF STREAM  
OHIO GAS & ELECTRIC, LLC.

CASE NO. 18-576-EL-ACP

## FINDING AND ORDER

Entered in the Journal on September 26, 2018

### I. SUMMARY

{¶ 1} The Commission approves the 2017 renewable portfolio standard compliance status report of Stream Ohio Gas & Electric, LLC.

### II. DISCUSSION

{¶ 2} Stream Ohio Gas & Electric, LLC (Stream) is an electric services company as defined in R.C. 4928.01(A)(9) and, as such, is subject to the jurisdiction of this Commission.

{¶ 3} R.C. 4928.64(B)(2) establishes benchmarks for electric services companies to acquire a portion of their electricity supply for retail customers in Ohio from renewable energy resources. R.C. 4928.645 provides that an electric utility or electric services company may use renewable energy credits (RECs) and solar energy credits (SRECs) to meet its respective renewable energy and solar benchmarks. Ohio Adm.Code 4901:1-40-01(BB) defines a REC as the environmental attributes associated with one megawatt hour (MWH) of electricity generated by a renewable energy resource, except for electricity generated by facilities as described in Ohio Adm.Code 4901:1-40-04(E).

{¶ 4} Ohio Adm.Code 4901:1-40-05(A) requires each electric services company to annually file by April 15 a renewable portfolio standard compliance status report (RPS report), unless otherwise ordered by the Commission. The RPS report must analyze all activities the company undertook in the previous year in order to demonstrate how pertinent alternative energy portfolio benchmarks have been met. Staff then conducts an

annual compliance review of the company's filing and the records of the applicable attribute tracking system to ensure that RECs were sourced from generating facilities certified by the Commission and were appropriately associated with electricity generated for the compliance period.

{¶ 5} On April 5, 2018, Stream filed its 2017 RPS report, stating that it did not have any Ohio retail electric sales in 2017. With no prior Ohio electric sales, Stream concluded that it did not have any renewable compliance obligations for 2017.

{¶ 6} On June 29, 2018, Staff filed its Review and Recommendations for Stream's RPS report. Staff reports that Stream is an electric services company in the state of Ohio and, therefore, had an 2017 RPS filing obligation, but no 2017 RPS compliance obligation. Further, Staff recommends that, for future compliance years, Stream initiate the transfer of the appropriate RECs and SRECs to its attribute tracking system reserve subaccount between March 1 and April 15 so as to precede the filing of its annual RPS report with the Commission.

{¶ 7} Upon review of Stream's 2017 RPS report and the records of these proceedings, we adopt Staff's recommendations.

### III. ORDER

{¶ 8} It is, therefore,

{¶ 9} ORDERED, That Stream's 2017 RPS report be accepted as filed, as Stream has met its RPS filing obligation for 2017. It is, further,

{¶ 10} ORDERED, That a copy of this Finding and Order be served upon all parties of record.
