

Comments on Case No. 18-0501-EL-FOR for Renewable Energy

Dear PUCO Docketing Division,

I am writing to urge you to support AEP's proposed renewable projects (and ask that my comment be docketed in Case No. 18-0501-EL-FOR). We need the jobs that these projects will bring to our communities, we want cleaner air and water for our families, and we want to benefit from the lower energy costs that come with renewable development.

Ohio has fallen behind neighboring states like Michigan and Indiana. You can help to change that by supporting these projects and helping Ohio to become a clean energy leader in the region.

I urge you to find that there is an urgent need for the AEP renewable energy projects and to approve them.

Sincerely,

Timothy Bennet

Dear PUCO Docketing Division,

I support efforts to move forward with clean energy. I feel AEP's renewable energy projects will help with job creation, and that is always a positive for a state and individual communities. I would want to make sure AEP is using solar panels manufactured in the United States. Solar panel manufacturing in China does not have the regulations found in the US regarding the caustic chemicals used to fabricate the panels. I would also like AEP to address a long term recycling process for the panels. I do believe that solar energy is part of a larger long term energy solution.

Dear Chairman Haque and PUCO Commissioners,

I am writing to urge you to support AEP's proposed renewable projects (and ask that my comment be docketed in Case No. 18-0501-EL-FOR). Date: Monday, October 15, 2018 1:22:37 PM

Dear PUCO Docketing Division,

Dear Chairman Haque and PUCO Commissioners,

I am writing to urge you to support AEP's proposed renewable projects (and ask that my comment be docketed in Case No. 18-0501-EL-FOR). We need the jobs that these projects will bring to our communities, we want cleaner air and water for our families, and we want to benefit from the lower energy costs that come with renewable development.

Ohio has fallen behind neighboring states like Michigan and Indiana. You can help to change that by supporting these projects and helping Ohio to become a clean energy leader in the region.

I urge you to find that there is an urgent need for the AEP renewable energy projects and to approve them.

Sincerely,

Matthew Smith

Dear PUCO Docketing Division,

We need clean, renewable energy with MINIMAL environmental and wildlife impacts. Wind power that is out of flyways and designed to not injure bats and birds. Solar power that does not cook birds, water power that keeps aquatic life safe and flourishing.

Dear Chairman Haque and PUCO Commissioners,

I am writing to urge you to support AEP's proposed renewable projects (and ask that my comment be docketed in Case No. 18-0501-EL-FOR). Dear Chairman Haque and PUCO Commissioners,

I am writing to urge you to support AEP's proposed renewable projects (and ask that my comment be docketed in Case No. 18-0501-EL-FOR). We need the jobs that these projects will bring to our communities, we want cleaner air and water for our families, and we want to benefit from the lower energy costs that come with renewable development.

Ohio has fallen behind neighboring states like Michigan and Indiana. You can help to change that by supporting these projects and helping Ohio to become a clean energy leader in the region.

I urge you to find that there is an urgent need for the AEP renewable energy projects and to approve them.

Sincerely,

Pam Leonard

Dear PUCO Docketing Division,

Please set the example that we the people so desperately need in turning away from dirty fossil fuels and instead, towards renewables. This is such hopeful news and we really hope that this project goes through for the sake of our health, environment, and our well-being both now and into future generations.

Dear Chairman Haque and PUCO Commissioners,

I am writing to urge you to support AEP's proposed renewable projects (and ask that my comment be docketed in Case No. 18-0501-EL-FOR). Dear PUCO Docketing Division,

Proposals like this, by a major energy supplier, need to be encouraged. These are projects that will not only support clean air standards but provide economic advantages by saving consumers \$ and creating more jobs. Jobs not only to build these projects but at the businesses that will support these installations.

Dear Chairman Haque and PUCO Commissioners,

I am writing to urge you to support AEP's proposed renewable projects (and ask that my comment be docketed in Case No. 18-0501-EL-FOR). Dear PUCO Docketing Division,

I live in one of the most beautiful parts of Ohio, Guernsey County. Sadly, little attention is paid to the environment here. Anything that can advance the care of the earth in general, and this beautiful part of it in particular, is worth the effort. I want my grandchildren, and their grandchildren, to be able to live in a beautiful and healthy land.

Dear Chairman Haque and PUCO Commissioners,

I am writing to urge you to support AEP's proposed renewable projects (and ask that my comment be docketed in Case No. 18-0501-EL-FOR). Dear PUCO Docketing Division,

I am a mother of two amazing children. I want nothing more for my children than clean healthy air, to breath, clean uncontaminated water to drink, beautiful natural environments to be inspired by, and an overall clean, healthy, very alive planet, to pass down to them. My daughter suffers from severe allergies and often has trouble breathing to begin with. Utilizing solar energy means cleaner, healthier air for my daughter to breath. Being a resident of Ohio, means that I am inspired to urge those who make important choices for Ohio's natural environment to make good moral choices for the health of our children. I am urging the Public Utilities Commission of Ohio to allow AEP to go through with their renewal energy installations.

Dear Chairman Haque and PUCO Commissioners,

I am writing to urge you to support AEP's proposed renewable projects (and ask that my comment be docketed in Case No. 18-0501-EL-FOR). Less profits for corps.....

Dear Chairman Haque and PUCO Commissioners,

I am writing to urge you to support AEP's proposed renewable projects (and ask that my comment be docketed in Case No. 18-0501-EL-FOR). We need the jobs that these projects will bring to our communities, we want cleaner air and water for our families, and we want to benefit from the lower energy costs that come with renewable development.

Ohio has fallen behind neighboring states like Michigan and Indiana. You can help to change that by supporting these projects and helping Ohio to become a clean energy leader in the region.

I urge you to find that there is an urgent need for the AEP renewable energy projects and to approve them.

Sincerely,

Glen Anderson

Dear PUCO Docketing Division,

Clean energy is the future, without it we will not be able to move forward in our venture to save Earth. Clean air and clean energy is the next step and could cause the next steps to come forward. We need to act fast if we want to make a true difference in the direction that we are going. So let's do all that we can to clean up our ecosystems, and save our beautiful planet.

Dear Chairman Haque and PUCO Commissioners,

Date: Monday, October 15, 2018 1:21:56 PM

Dear PUCO Docketing Division,

Dear Chairman Haque and PUCO Commissioners,

I am writing to urge you to support AEP's proposed renewable projects (and ask that my comment be docketed in Case No. 18-0501-EL-FOR). We need the jobs that these projects will bring to our communities, we want cleaner air and water for our families, and we want to benefit from the lower energy costs that come with renewable development.

Ohio has fallen behind neighboring states like Michigan and Indiana. You can help to change that by supporting these projects and helping Ohio to become a clean energy leader in the region.

I urge you to find that there is an urgent need for the AEP renewable energy projects and to approve them.

Sincerely,

Douglas Cameron

Dear PUCO Docketing Division,

Dear Commissioners: I appreciate the Apples to Apples comparison chart for Ohio electric utility consumers. Two years ago, I selected AEP alternative energy option of \$0.06 per kilowatt hour. When I told my brother who lives in Utica; he said he had no choice and paid about \$0.13 per kilowatt hour. I also appreciated the sight of wind turbines in northwest Ohio as I was driving on US 33 near the Indiana border. Again, I would like to express my appreciation for your approval of additional wind turbines that AEP would like to install in Ohio for AEP consumers.

Dear Chairman Haque and PUCO Commissioners,

I am writing to urge you to support AEP's proposed renewable projects (and ask that my comment be docketed in Case No. 18-0501-EL-FOR). We need the jobs that these projects will bring to our communities, we want cleaner air and water for our families, and we want to benefit from the lower energy costs that come with renewable development.

Subject: Comment on Case No. Case No. 18-0501-EL-FOR for Renewable Energy
Date: Monday, October 15, 2018 1:21:52 PM

Dear PUCO Docketing Division,

In addition to the environmental benefits of AEP's clean energy plan, the construction of distributed energy generation around AEP's service territory will improve their transmission system efficiency by putting the generation closer to the points of use, which reduces transmission line peak currents and thus the I-Squared-R heat losses in the lines. Since solar energy is abundant during daylight hours when system demand is highest, this will give AEP more flexibility for generation system maintenance during peak hours and may allow them to retire inefficient generation that has been needed as peaking units.

Dear Chairman Haque and PUCO Commissioners,

I am writing to urge you to support AEP's proposed renewable projects (and ask that my comment be docketed in Case No. 18-0501-EL-FOR). Dear PUCO Docketing Division,

Ohio needs to support solar energy. It means less carbon emissions and pollutants which are harmful to all Ohioans and our neighbors. No to mention new jobs and lower energy bills. Anyone who is not supporting clean energy is a dinosaur and the voters and stockholders of the upcoming generations are the asteroid.

Dear Chairman Haque and PUCO Commissioners,

I am writing to urge you to support AEP's proposed renewable projects (and ask that my comment be docketed in Case No. 18-0501-EL-FOR). Date: Monday, October 15, 2018 1:21:42 PM

Dear PUCO Docketing Division,

air water and soil quality directly impact our health

Dear Chairman Haque and PUCO Commissioners,

I am writing to urge you to support AEP's proposed renewable projects (and ask that my comment be docketed in Case No. 18-0501-EL-FOR). We need the jobs that these projects will bring to our communities, we want cleaner air and water for our families, and we want to benefit from the lower energy costs that come with renewable development.

Ohio has fallen behind neighboring states like Michigan and Indiana. You can help to change that by supporting these projects and helping Ohio to become a clean energy leader in the region.

I urge you to find that there is an urgent need for the AEP renewable energy projects and to approve them.

Sincerely,

Maureen A Absten

Dear PUCO Docketing Division,

Renewable energy resources are the way we as a people need to go if we hope to continue as a species. We have known this for a long time and I'm so thankful that companies like AEP have finally realized the financial benefits along with the environmental benefits. We have had solar panels on our house for 3 years but still buy supplemental power from AEP. We have considered adding more since we have an electric car and use more electricity. This proposal to add renewable energy projects to the power company we buy power from would be so wonderful as it is in line with our values and is financially smart.

Dear Chairman Haque and PUCO Commissioners,

I am writing to urge you to support AEP's proposed renewable projects (and ask that my comment be docketed in Case No. 18-0501-EL-FOR). Dear PUCO Docketing Division,

Finally, some common sense! I absolutely support any and all solar and other renewable energy projects in Ohio, the rest of the US and the world. We all share the same ecosphere and we all have a responsibility to keep it healthy. This duty is basically one of self-preservation. Old carbon based energy interests blocking the development of renewable energy are emphasizing their immediate gain over the health of our planet and all the creatures it supports, including us. It is hard to imagine any greater short term foolishness.

Dear Chairman Haque and PUCO Commissioners,

I am writing to urge you to support AEP's proposed renewable projects (and ask that my comment be docketed in Case No. 18-0501-EL-FOR). We need the jobs that these projects will bring to our communities, we want cleaner air and water for our families, and we want to benefit from the lower energy costs that come with renewable development.

Date: Monday, October 15, 2018 1:21:29 PM

Dear PUCO Docketing Division,

Dear Chairman Haque and PUCO Commissioners,

I am writing to urge you to support AEP's proposed renewable projects (and ask that my comment be docketed in Case No. 18-0501-EL-FOR). We need the jobs that these projects will bring to our communities, we want cleaner air and water for our families, and we want to benefit from the lower energy costs that come with renewable development.

Ohio has fallen behind neighboring states like Michigan and Indiana. You can help to change that by supporting these projects and helping Ohio to become a clean energy leader in the region.

I urge you to find that there is an urgent need for the AEP renewable energy projects and to approve them.

Sincerely,

Susan Rieser

Dear Chairman Haque and PUCO Commissioners,

I am writing to urge you to support AEP's proposed renewable projects (and ask that my comment be docketed in Case No. 18-0501-EL-FOR). We need the jobs that these projects will bring to our communities, we want cleaner air and water for our families, and we want to benefit from the lower energy costs that come with renewable development.

Ohio has fallen behind neighboring states like Michigan and Indiana. You can help to change that by supporting these projects and helping Ohio to become a clean energy leader in the region.

I urge you to find that there is an urgent need for the AEP renewable energy projects and to approve them.

Sincerely,

Joseph Etterling

Dear PUCO Docketing Division,

I live in a small village in Southwest Stark County, OH and the village supplies our electricity. They are in the process of building a solar array and pallets of solar panels have been delivered. If a village with 2,000 residents can do this I don't see why larger solar projects aren't becoming the norm. Please take this huge step to keep Ohio beautiful and protect our natural resources. Thank You!

Subject: Comment on Case No. Case No. 18-0501-EL-FOR for Renewable Energy
Date: Monday, October 15, 2018 1:20:56 PM

Dear PUCO Docketing Division,

Dear Chairman Haque and PUCO Commissioners,

I am writing to urge you to support AEP's proposed renewable projects (and ask that my comment be docketed in Case No. 18-0501-EL-FOR). We need the jobs that these projects will bring to our communities, we want cleaner air and water for our families, and we want to benefit from the lower energy costs that come with renewable development.

Ohio has fallen behind neighboring states like Michigan and Indiana. You can help to change that by supporting these projects and helping Ohio to become a clean energy leader in the region.

I urge you to find that there is an urgent need for the AEP renewable energy projects and to approve them.

Sincerely,

David Slisher

Dear PUCO Docketing Division,

We need to do everything we can to combat climate change and we need to do it now! Please approve this proposal right away.

Dear Chairman Haque and PUCO Commissioners,

I am writing to urge you to support AEP's proposed renewable projects (and ask that my comment be docketed in Case No. 18-0501-EL-FOR). Dear PUCO Docketing Division,

Clean Energy is the future! And, lower prices for the consumer are very attractive for those of us on a fixed income. Thank you for your consideration of this matter.

Dear Chairman Haque and PUCO Commissioners,

I am writing to urge you to support AEP's proposed renewable projects (and ask that my comment be docketed in Case No. 18-0501-EL-FOR). We need the jobs that these projects will bring to our communities, we want cleaner air and water for our families, and we want to benefit from the lower energy costs that come with renewable development.

Dear PUCO Docketing Division,

Switching to green energy for our power needs is critical for the future of our planet. Already we are seeing worsening floods, forest fires, drought, higher temperatures. Thoughtful, big change is needed to mitigate the upcoming difficulties we will be facing as our planet gets hotter. I personally have gotten solar panels and hope to purchase an electric car in the near future. Puco commissioners it is your duty to do all that you can to direct us to a survivable future. The 10 hottest years in recorded history have been since 2000. Did you know Phoenix Arizona had over 100 days of 100 degree weather last year and an all time high of 124 degrees was recorded in Algeria this last year.

Dear Chairman Haque and PUCO Commissioners,

I am writing to urge you to support AEP's proposed renewable projects (and ask that my comment be docketed in Case No. 18-0501-EL-FOR).
