

Comments on Case No. 18-0501-EL-FOR for Renewable Energy

Dear PUCO Docketing Division,

I am writing to urge you to support AEP's proposed renewable projects (and ask that my comment be docketed in Case No. 18-0501-EL-FOR). We need the jobs that these projects will bring to our communities, we want cleaner air and water for our families, and we want to benefit from the lower energy costs that come with renewable development.

Ohio has fallen behind neighboring states like Michigan and Indiana. You can help to change that by supporting these projects and helping Ohio to become a clean energy leader in the region.

I urge you to find that there is an urgent need for the AEP renewable energy projects and to approve them.

Sincerely,

Tana Housh

Dear PUCO Docketing Division,

Please support this wonderful renewable energy project! My family and I have been waiting for solar for years, ever since I found out burning dirty coal contributes to the breathing problems of many, especially children, the sick, and the elderly. We encourage you to pass this soon as possible, for cleaner air, cheaper long range costs and job opportunities for the people in the area. Thank you so much for moving Ohio further into the renewable energy realm! You are helping our earth and humanity!

I am writing to urge you to support AEP's proposed renewable projects (and ask that my comment be docketed in Case No. 18-0501-EL-FOR). Dear PUCO Docketing Division,

I have seen first hand how well solar power works. Would love to see more in Ohio
