REVIEW AND RECOMMENDATION
SUBMITTED ON BEHALF OF THE STAFF OF
THE PUBLIC UTILITIES COMMISSION OF OHIO

On October 8, 2018, Global Tel*Link Corporation (Applicant) filed this ATA seeking to revise its inmate operator services tariff. In this filing, the Applicant is proposing to revise its rates, which includes rates increases, decreases and some rate deletions to comply with the newly implemented inmate operator services rate caps. The Applicant is also proposing to make various textual changes and deletions.

Pursuant to rule 4901:1-6-22(B) the maximum rate of any usage sensitive charge that may be applied by an inmate operate service provider shall be consistent with rates established by the Federal Communication Commission (FCC) set forth in 47 C.F.R. part 64, subpart FF. The Applicant's proposed rate revisions makes its proposed rates consistent with the rates established by the FCC. The proposed textual changes and deletions are necessary due to the proposed rate revisions, as such Staff finds the change to the terms and conditions to be reasonable. In this filing, no customer notice is necessary since customers are notified of rates prior to accepting or making any inmate operate service call.

The Staff reviewed all documents and exhibits filed on October 8, 2018; and in conclusion, the Staff review found that the application is reasonable. Therefore, Staff recommends that the Applicant's application for tariff amendment (ATA) be approved.
