Let me start by saying I love the rural areas that I live in , I like the clean water I drink and where I can go outside and not see these hideous wind turbine just let me say I have a family and projects are a very bad idea you cannot let these money sucking vultures bring these project here the people who live here moved here for the piece and quiet from the city not to mention our property values. You need to look at the big picture and the people of Seneca co and not money there shoving in your pockets!!
