18-1607-EL-BGN³

To Whom it May Concern:

As a resident of the region and a parent of a 3 boys who graduated grade student who attended Seneca East High School school I'd like to express my support of the Emerson Creek Wind (Docket No. 18-1607-EL-BGN Emerson Creek Wind, Llc) project in my community.

yes ✓ Payments to my child's school will provide much needed resources to invest directly in classrooms to support our children. These payments will allow increased investment in our children's education, without burdening our hardworking community members with increased property taxes.

yes ✓ We should all be invested in the future of our community and the success of our students. I ask you to please consider the benefit this project will provide to children who attend our local public schools, and how grateful parents like me would be if this project moves forward.

Sincerely,

Tami Diehn

RECEIVED-DOCKETING DIV

To Whom it May Concern:

While I am not someone who would support a tax increase, I would like to see updated infrastructure in my community. The development of the Emerson Creek Wind project (Docket No. **18-1607-EL-BGN**) will improve the roads I use without an increase in taxes.

I live in a rural area, so it is important to me that I am accessible by emergency personnel in case something should happen to me or someone in my family. Improved roads would make it easier for emergency vehicles to access my home, and improved emergency response procedures would help in case of helicopter rescue.

These benefits to local infrastructure would improve safety and accessibility for people who live in rural areas like me. Thank you for considering my concerns and support of this project.

Sincerely,

To Whom it May Concern:

I may not like the color my neighbor chose to paint their front door, or being woken up from my afternoon nap because of their barking dog; but I acknowledge that it is their right to do and have what they want on their property.

I ask that my neighbors and commissioners recognize that I have the same right to do what I want with my property. I know that the Emerson Creek Wind project (Docket No. **18-1607-EL-BGN**) will provide an economic boost to my community while providing a clean source of power that will improve the air quality in our region. My family could also use the payments provided by allowing turbines to be built on my property. I have a right to use my land to participate in this project.

Please uphold the property rights of landowners by standing up to the anti-wind bullies who want to tell me what I can do with my own land.

Thank you for your time and consideration.

Best Wishes,
