Subject: Documenting Bats in Seneca Wind Project 18-0488-EL-BGN

Mr. Butler,

Thank you for taking the time to talk with me at the Republic Wind meeting last week. You asked that I share with you the video from my phone of bats at my home in Bloom Township. The video was too large to email, but my husband loaded it to YouTube and hopefully you will be able to access the video through the link below:

Bat video: https://www.youtube.com/watch?v=B_tFaKwGIE&feature=youtu.be

I am also including a second link which is to a blog I kept during the renovation of our house, mostly from 2009-2011. The link below will take you to only the entries that mention bats.

Blog featuring bats: <http://einselstonehouse.blogspot.com/search/label/bats>

I am sure you are very busy, but if you have time to review other blog entries I would appreciate it. The memories recorded in those entries are probably the best tool I have to convey what my home means to me and my family, and the relationships and memories that I treasure about this place.

In case it would help - I believe we are receptor #71 in the Seneca Wind Project. The address is 7245 S. Co. Rd. 43, Bloomville, OH 44818. We have already provided entries from the Ohio Historic Inventory showing that ours is the middle of three properties all identified as eligible for the National Historic Register.

Thank you for your time, and please feel free to contact me if I can provide any other assistance.

Sincerely,

Kimberly Groth
