Comments

We do not want turbines or any power company in our county. There are too many negative points and losses to our county. This has already pinned my neighbors against each other. Very sad what there are doing to our neighborhood.

Thank you for your thoughts and insights regarding this project.

Name

Stephanie Miller

Township, County of Residence

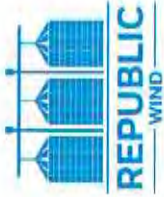

Read, Seneca County

Comments

I ABSOLUTELY DISAPPROVE of these being built in our area. These enormous structures put all of the residents in the area for a variety of reasons such as infrasound, shadow flicker, health concerns, decrease in property values, ice throw, etc. Please DO NOT let these people destroy our community by putting these structures up and so close to our homes.

Thank you for your thoughts and insights regarding this project.

Comments

I am very much in favor of this project. My parents  
were both farmers. I was born in Seneca County. They  
had to leave farming due to the inability to generate enough  
money to keep farming. If turbines existed then, maybe they  
could still be farming. The community needs the PILOT that  
this project will produce.  
Thank you for your thoughts and insights regarding this project.

Comments

We regularly see eagles behind our house. A few weeks ago we saw six at one time. We also just had a bat in our basement. So we obviously are concerned about the bats and eagles in our area. I feel the project in this area endangers people and wildlife. There are too many people living in the footprint. Please consider this project. It does not belong here!

Thank you for your thoughts and insights regarding this project.
